this action of the USSR Government.

We ardently desire, on the one hand, that this action taken by the USSR Government will become a permanent measure, and wish, on the other, that the Governments of the United Kingdom and of the United States of America promptly suspend testing of nuclear weapons, so that suspension of such tests will be realized in every part of the world.

We request that scientists in different countries of the world will continue their untiring efforts along these lines.

Tokyo, 18 April 1958

Adopted by the Science Council of Japan at its Twenty-sixth General Meeting
