

## **Recommendation**

**Recommendation on suspension of submission of the bill to amend  
the Act of Science Council of Japan and establishment of an open  
forum for consultation to review the entire academic system**

**April 18, 2023**

**Science Council of Japan**

The original text is written in Japanese. This is a provisional English translation.

This Recommendation to the Government of Japan was decided on at the 187<sup>th</sup> General Assembly of the Science Council of Japan.

Pursuant to Article 5 of the Act on the Science Council of Japan, the Science Council of Japan, by the decision of its 187<sup>th</sup> General Assembly, makes the following recommendations to the Government:

The Government of Japan should suspend submission to the 211<sup>th</sup> session of the Diet (2023 Ordinary Diet session) of the bill to amend the Act on the Science Council of Japan, which is currently under consideration by the Government, and it should establish an open forum for consultations to conduct a comprehensive and fundamental review of the entire academic system in Japan, including the Science Council of Japan.
