

2008. 12. 10

## WEC 招致について

WFEO 理事 石井弓夫

SCJ, JFES では WEC を日本に招致することの検討を開始した。

その一環として、

2008 年 11 月 30 日から 12 月 8 日にかけてブラジリアで開かれた WFEO 理事会、WEC2008 と、

12 月 7 日、8 日の WEW2010 アルゼンチン大会顧問委員会において

非公式に WFEO 幹部の感触を当った。接触した相手は

Barry Grear 会長(オーストラリア代表)

Maria Laffargue 次期会長(スペイン代表)

Mike Sanio 理事随員 (米, WFEO 会員の American Association of Engineering Societies AAES に米土木学会 ASCE 国際部長として参加)

Mario Telichevsky アルゼンチン工学会 Argentine Union of Associations of Engineers UADI 代表、 WEW2010 会長

等。以下はその結果である。

1. 次々回 WEC は 2015 年であるが、目下のところ、ルーマニアとカナダが関心を示している。
2. 日本の招致を歓迎する。
3. 2009 年 11 月の Kuwait 総会で、一応の立候補がなされる必要がある。
4. 魅力的なテーマ、魅力的な社会的行事とポストコンファレンスツアー
5. 参加者数の予測、スポンサー数の予測、赤字にならないような財務計画。
6. WEC2008 ブラジリアは 500 万ドルの予算、参加者は 5000 人、平均登録費は 350 ドル、不足分は展示参加費、スポンサーの賛助金、政府の補助
7. WEC2011 ジュネーブは予算 500 万ドルを予定。
8. 展示参加費は最小ブース 20 m<sup>2</sup>で 5 千ドル〜か。100 社は必要。
9. 招致成功には政府の協力が欠かせない。皇室が参加してくれればきわめて大きな影響がある。
10. 総会に関して、2007 ニューデリー総会ではインド政府の大きな協力があつた。2009 年 Kuwait 総会でも政府の協力が期待されている。
11. 来年には WFEO 幹部が訪日を計画している。文科大臣表敬、SCJ 会長、JFES 会長との懇談の機会があればと期待している。

#### World Engineers's Convention WEC 2011

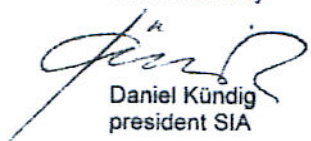

It's with great pleasure that FEANI Switzerland would like to submit their candidature for the World Engineer's Convention in the year 2011 in Geneva.  
The Swiss Candidature is supported by the following Associations:  
Swiss Engineering Association (SE), Swiss Engineers and Architects (SIA) and The Swiss Academy of Engineering Sciences (SATW). This bid is also backed by the state of Geneva and Switzerland.

After having examined the requirements specific to the congress we can positively state that Geneva und the lake Geneva Region have the capacity to provide all facilities required for this event. Geneva is situated in one of Europe's most beautiful scenery, between lake and mountains. In the very heart of Europe, Geneva has a long tradition of hosting the candidature for major meetings and is a city to many international organizations such as the United Nations Organization, ITU, WIPO, ISO, OMM, the World Health Organization among others. The candidature will take place at the newly renovated Geneva International Conference Center with a capacity of more than 2000 delegates. Geneva has an international airport offering direct flights to nearly 100 international destinations.

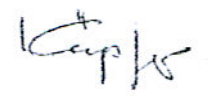

We propose a convention with a principal theme "Energy", we would like a approach with different levels: fundamental research, applied research and industrial application.

We hope that your organisation accepts our proposal and that our Swiss team will get the chance to welcome the WEC2011.

Yours faithfully

  
Daniel Kündig  
president SIA

  
Ruedi Noser  
president SE

  
Rudolf Küpfer  
president FEANI CH

**Proposals for a WFEO World Congress and the World Engineer's Convention (WEC)**

1. Proposals to hold a WFEO endorsed World Congress or the World Engineer's Convention are to be submitted to the Executive Director at the earliest possible date.

Congresses may be held in conjunction with a General Assembly, a meeting of the Executive Council, a meeting of a Standing Committee or may stand alone.

From the 2011, the WEC will be held in conjunction with the General Assembly and continue on a four year cycle anticipated as being 2015, 2019 etc.

3. The basic requirements for any WFEO World Congress are that keynote speakers should have or merit a world-wide reputation, and that the Congress takes a global approach to its subject, and to attracting an audience. It is required that assurances be given that the host countries will allow freedom of entry to delegates from all nations, irrespective of race, sex, colour or national origins.

4. A detailed proposal relating to the proposed Congress is to be submitted in accordance with the guidelines in Attachment A.

A detailed proposal relating to the proposed Congress is to be submitted in accordance with the guidelines in Attachment B.

5. Proposals will be favoured where there is a strong international organising committee, a strong programme on a matter of world engineering interest, where the host country accepts full financial responsibility for the financial outcome, and where some form of support for air fares and accommodation costs and congress fees can be provided to delegates from developing nations. WFEO would normally hope that, where the Congress is held in conjunction with a General Assembly or Executive Council, suitable venues can be provided at little or no cost to WFEO.

6. WFEO General Assemblies are currently held in odd years, 1995, 1997, 1999, 2001 and so on, with Executive Council meetings in even years. The meetings are normally held in the Northern Hemisphere autumn (Southern hemisphere spring) between September and November, but other dates can be considered. Approval to host General Assemblies and an associated World Congress will normally be given on a provisional basis at the General Assembly held four years before the proposed date, with final confirmation two years before the proposed date.

### **WFEO World Congresses. Guidelines For Proposals.**

All proposals to hold WFEO World Congresses are to be submitted to the Executive Director Director WFEO in accordance with the following guidelines. For those congresses planned to be held in conjunction with a WFEO General Assembly or Executive Council meeting, initial proposals should be submitted at least two years in advance.

#### Proposed Timing:

- \* Preferred and alternate dates.
- Conflict with other meetings
- Air fares prevailing and discounts available.
- \* Length of World Congress and relation to other events.
- \* Climate.

#### Proposed Country

- \* Equality of treatment with respect to race, sex, colour, religion, national origin.
- \* Political stability
- \* Economic stability
- Currency stability and convertibility.
- \* Public Transport/infrastructure.
- \* Air Safety Record

#### Proposed Theme and Speakers

- \* Proposed Theme of Congress
- \* Importance of Theme to World Engineers
- \* Intended Sources of Speakers.
- \* Minimum expected attendance -local. and overseas.
- \* Proposed registration fees. Full and Student.
- \* Working language or languages.
- \* Plans to publish papers
- Number of invited papers planned.
- \* Plans for social program and partners program
- \* Proposed contribution to WFEO.
- \* Support for developing country delegates.

#### Proposed Organisation.

- \* Support from National Engineering Organisations.
- Support from other National and business organisations
- Support from State, National or Local Government.
- \* Support from international or other National Organisations.
- \* Financial underwriting.
- Technical organising group.
- Management organising group.
- Local experience with similar events.

#### Proposed Venue

- + City and location of auditorium.
- \* Capacity of Plenary auditorium
- \* Meeting room numbers and capacity.
- \* Poster sessions space
- Exhibition plans. Proximity to Congress venue.
- \* Facilities available for associated WFEO activities.
- \* Hotel accommodation and rates.
- Student accommodation and rates.

**WFEO WORLD ENGINEER'S COVENTION**

All proposals to hold WFEO WEC are to be submitted to the Executive Director WFEO in accordance with the following guidelines.

**First draft for discussion between Barry, Hisham and Tahani and Kamel**

WEW2010 に関し IAC に提出した 石井コメント

11 Dec. 2008

Revised Comments to IAC: WEW2010

ISHII, Yumio Dr. Eng.

IAC: WEW 2010

My comments are based on the experiences at Brasilia and other conferences. The original ones dated 8 Dec. 2008 is revised after the site reconnaissance of the proposed venue on 8 Dec. 2008.

1) Promotion

Attractive theme and topics are essential for participation, especially, from Asia.

They may be Climate Change, Disasters, MDGs, Urbanization.

Promotion through diplomatic channels are also necessary.

Social programs and post conference tours should be attractive for participants and their spouses.

2) Key Speaker(s)

Key speakers will show the participants the essentials that the people and societies are expecting to engineers.

Candidates:

Mr. Rajendra Pachauri, SG of IPCC

Prince of Orange of the Netherlands, Willem-Alexander

3) Documentation materials

Brochures, programs and guide books shall be written in Spanish and English.

Proceedings, CD, is essential and must be included in the package.

4) Logistics

Large number of registration desks for 5000 participants must be prepared for smooth registration and payment.

Security check shall be smooth.

The seats for VIP and executive council members with their spouses shall be blocked at opening and closing ceremony.

Receiver for simultaneous interpretation shall be smoothly rented.

Microphone system should be operative in every meetings.

Lunch and dinner 'vouchers' which are not required further payment should be included in the package.

5) Venue

According to Eng. Mario Telichevsky, President WEW2010, the venue of the opening

and closing ceremony may be held at a different place from the Rural Venue. Although the ceremonies at the same place is better, the different venue will be unavoidable considering the less capacity of the main hall at the Rural Venue.

Rooms for plenary, meetings, sessions, Expo, restaurant should be located for smooth movement of participants and clearly announced. Their location map must be included in the guide book.

The smell of the horse show at the Rural Venue is not good for participants and exhibitors.

#### 6) Transportation and accommodation

All the participants of 5000 will not be able to be transported by shuttle buses. Metro is recommended as main transportation. Public bus will be counted as auxiliary. Their time schedule should be clearly noticed.

Taxi is also important and advance notice to taxi drivers' association is necessary.

Several classes of hotels should be prepared with reasonable convention rate.

Smooth hotel reservation through the secretariat is a 'must', especially for foreign participants.
