Accommodation in Prague

Prague offers world class services at a reasonable cost. Prague's hotels and other amenities, mostly built in the last decade, can accommodate more than 70,000 persons and offer the highest standard. You can find any category of accommodation in Prague - from small charming boutique hotels, luxury hotels in former palaces and villas, modern chains to modern congress hotels. During the summer, visitors can also use budget student accommodation facilities. Middle and high class accommodation is available directly at the congress centre and all other types are within about 20-30 minutes transportation. Discount for congress participants can be up to 30-50% of standard prices in more expensive hotels. Of course, the participants can take advantage of many travel agencies in Prague and arrange accommodation independently.

ECによる ジェンダーバランスについての声明

Statement on Gender Balance

The Executive Committee of the International Union of Crystallography proposes that the General Assembly endorse the following statement.

The International Union of Crystallography strives to achieve gender balance in all its institutions and activities bearing in mind other diversity needs and its existing obligations to geographic and academic discipline representation where appropriate.

To achieve this aim the IUCr will adopt procedures to promote gender balance in respect of all of its activities including selection of candidates for positions on its Committees and Commissions. Those seeking support from the Union for Congresses, meetings, workshops and schools will also have to demonstrate their efforts to address gender balance.
