

Lei Jiang

Professor
Institute of Chemistry, Chinese Academy of Science
P. R. China

Educational Background

B. S.	Solid State Physics, Jilin University of China, 1987
M. S.	Physical Chemistry, Jilin University of China, 1990
Ph. D.	Physical Chemistry, The University of Tokyo and Jilin University of China, 1994

Professional Experience

Present	Chief Scientist, The National Center for Nanoscience and Technology
1999 - Present	Professor, Institute of Chemistry, Chinese Academy of Science Chief Scientist, The National Center for Nanoscience and Technology
1996 - 1999	Researcher, Kanagawa Academy of Sciences and Technology, Hashimoto's project
1994 - 1996	Postdoctoral Fellow, Akira Fujishima's group, The University of Tokyo

Field of Study

The Bio-inspired Surface & Interfacial Materials with Special Wettability
