

Toward Carbon Neutral Society

**Shin-ichi Tanabe, Prof. Dr.
Waseda University
President, Architectural Institute of
Japan**

CO2 emission in Japan (2019)

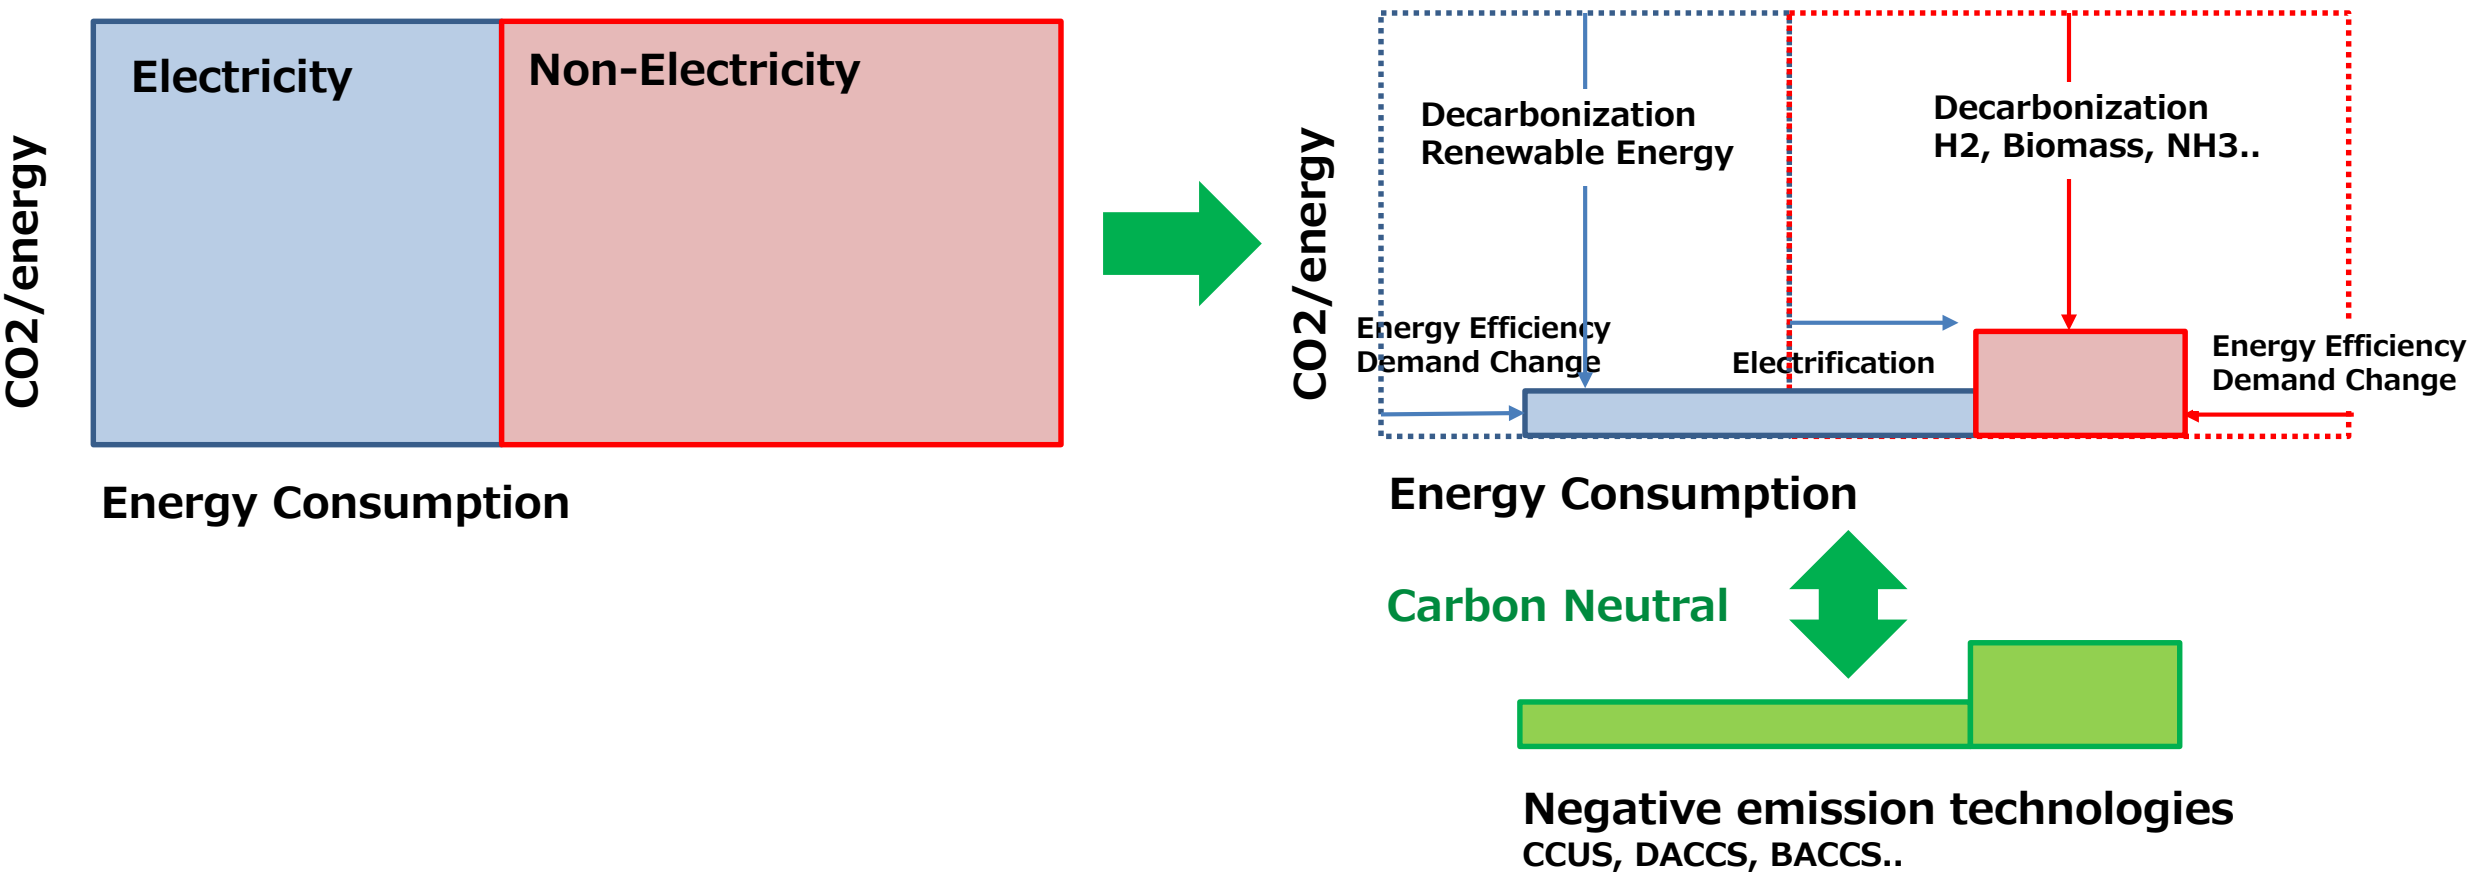

$$0.7 \times 0.7 = 0.49$$

Energy X Unit of CO₂ emissions = CO₂

$$\text{kWh} \times \text{CO}_2/\text{kWh} = \text{CO}_2$$

How to realized CN?
