JAPANESE RESEARCH IS NO LONGER WORLD CLASS — HERE'S WHY

Ikarashi A.(2023), *Nature*, 623(7985):14-16. doi: 10.1038/d41586-023-03290-1.

Research environment of excessive competition and demanding workload

Insufficient time for research

Intense competition for research funding

Intense competition for positions

No room for long-term results waiting

Authorship competition

Lack of life-work balance

Our small but Important Action = Nursery in the Conference

Fee

Free

- *Children can attend the conference when accompanied by a parent or guardian.
- *Nursery service is available (advance reservation is required due to capacity limitation).
