# 3<sup>rd</sup> GADRI Open Discussion Forum

## Changing Expectations of Natural Hazards: Lessons from Recent Disasters

Disaster Prevention Research Institute (DPRI)  
Kyoto University, Uji Campus  
Collaborative Research Hub – Conference Room 301

26 February 2020

8:30 – 17:00 hours

### **General Objective:**

*Since March 2015, the Global Alliance of Disaster Research Institutes (GADRI) has been operating with a mandate to share evidence-based research, and to promote international cooperative activities in disaster risk reduction and resilience to disasters. GADRI's vision aims to foster relationships through participation and collaboration with diverse academic networks, and combine efforts with ongoing activities among international institutions to find implementable solutions to existing and emerging disaster risks.*

*The Open Discussion Forum is organized:*

- to introduce GADRI activities, and the members of GADRI Board of Directors*
- to facilitate discussion between GADRI members and important stakeholders in disaster risk reduction; and*
- to find directions for GADRI to proceed in the next few years*

During the general discussion session scheduled towards the end of the Programme, the participants will have an opportunity to interact with the panellists with suggestions to direct GADRI activities in most needed research areas for disaster risk reduction.
